

ANNOUNCEMENT

2009 SUMMER FELLOWSHIPS FOR UNDERGRADUATE STUDENTS

The Center for Applied Mathematics (CAM) is pleased to announce the Summer Fellowship competition for Undergraduate Students for June of 2009. Support is only available for June 2009 since it comes out of the Center's 2008-2009 budget. Each fellowship provides funds for room and board on campus plus a small stipend for one month. Recipients will be designated as Undergraduate Summer Fellows of the Center for Applied Mathematics.

To apply for these fellowships for the Summer of 2009, a student must submit a proposal to the Center by **April 14, 2009**.

The proposal must describe clearly and concisely in no more than one page the student's research topic, the expected contribution to the interdisciplinary research project, and its relevance to applied mathematics.

The proposal should also contain the following:

- (i). A Curriculum Vitae of the applicant.
- (ii). A letter of recommendation from the student's faculty project advisor.
- (iii). The time period for which support is sought, academic transcripts, and any other supporting documentation.

Final selection will be made by the Center's Executive Committee and will be announced by the middle of May.

Please submit proposals **by April 14, 2009** to:
